### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the appropriate paragraphs of 35

U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-42 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Karighattem (USP 6,594,776).

See Figures 2-3 and the description thereof in Karighattem. Karighattem taught a communication mechanism (110, Figure 2), comprising:

A first NIC 120 (Figure 2, line 23 of column 3), a second NIC 126 (Figure 2, line 27 of column 3) and a management mechanism (server 114, lines 23 of column 3 to line 9 of column 4) for switching NICs when failure occurs by mapping addresses (Figure 3 and line 10 of column 4 to line 39 of column 5, see also steps 304+).

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 43-63 are rejected under 35 U.S.C. 103(a) as being unpatentable over Karighattem.

Karighattem only shows one set of redundancy. It would have been obvious to a person of ordinary skill in the art to provide more than one set of

redundancy so that in the event the first redundancy fails also, the third set is able to take over.

A handwritten signature in black ink, consisting of a series of loops and a long horizontal stroke at the end.
